I'll check with Andrew Mutter to see if Greg and Deb need to review.

Thanks Betsy. Was Greg or Deb going to review it? Or can I get it ready to send out to the journal.

Hi Dan – Thanks for sharing. The Letter reads very well...I had a few very minor edits.

Thanks
Betsy

Hi All,
You remember the meconium issue right? We had discussed putting together a letter to the editor requesting they review their decision to publish the McDermott et al. article. Nikia, Charlie and Lynn Woodbury (CDM) have written the attached letter for your review (and Greg/Deb if appropriate). I know folks are busy now but we'd like to get a review by 4/15 if possible.
Thanks.

Dan,

I have combine our comments into this final version. I believe this version is ready to send up the chain for review. I know everybody is super busy, but if there is anyway you can ask for a quick turnaround, that would be great.
